

Many individuals do not know they were a U.S. citizen either at birth or after birth.

For example, if you were born in the United States or certain territories or have a parent who is a U.S. citizen at the time of your birth, even if you were born abroad, you may be a U.S. citizen. Our office can help you navigate the complex organization scheme to determine whether you are a U.S. citizen. In addition, our office can assist in obtaining your citizenship via naturalization. We will file the application, provide you with resources to help you prepare for the English and Civics test as well as provide you with legal representation at your Naturalization hearing.
